14 AUG 1963

MEMORANDUM FOR: Deputy for Technology, OSA

SUBJECT: Flight Test Summary

1. The purpose of the weekly A-12 Flight Test Summary is to recap flying hours, engine hours, make note of envelope extension and to generally monitor flight test progress in the OXCART Program. Subject report is currently being prepared by OXCART Branch, Operations Division, OSA, and has been prepared by this office since the inception of A-12 flying.

2. Inasmuch as the development of this vehicle is still strictly a flight test function, any summarization of flight test activities should appropriately be prepared and maintained as a development function.

3. Request Deputy for Technology, OSA, take over responsibility for preparation and publication of the weekly Flight Test Summary effective 19 August 1963, due date for the 12 to 17 August 1963 report.

4. Operations has a very definite "need to know" regarding progress in the flight test area and we will continue to be users of the report. Request Deputy for Field Activities, OSA, be provided three copies weekly of this report for use in the OXCART Branch, OSA.
